Career Objective

Enthusiastic BTech Computer Science student passionate about web development and problem-solving. Seeking an internship to apply technical skills in React.js, Node.js, MySQL, and API integration while contributing to innovative projects.

Education

Jodhpur Institute of Engineering and Technology

BTech in Computer Science — CGPA: 8.6 — 2027

Delhi Public School (DPS)

12th: 76% — 10th: 60%

Technical Skills

Languages: Java, Python, C, JavaScript

Web Tech: HTML, CSS, React.js, Node.js, Express.js, MySQL

Tools: Git, VS Code, Postman, Docker, API Integration

Other: DSA, Problem Solving, Database Management

Projects

To-Do List App

A simple and responsive To-Do list web application built using HTML, CSS, and JavaScript. Features task addition, deletion, and visual status updates.

Live: dailydose-todo.netlify.app

College Website

Developed a fully responsive college website with feedback, gallery, course details, and admission form using React.js and API integration.

Student Management System

Built a MERN stack application with CRUD operations and real-time updates using React, Node.js, Express, and MongoDB.

Amazon Frontend Clone

Created a responsive Amazon-like UI with product listings, search, and filtering using React.js and CSS.

Tic Tac Toe Game

Interactive two-player game in React.js with clean UI and real-time logic.

Certifications & Achievements

- GUI Tkinter & C Programming (Infosys)
- IoT Lab Participation (JIET University)
- 5-star in C & Java on HackerRank
- Active on LeetCode & CodeChef coding contests

Strengths

Problem-Solving — Quick Learner — Teamwork — Time Management
Analytical Thinking — Adaptability
